Subject: RE: Edits to LNAPL Attachments for Topics 8 & 10
Attachments: Red Hill AOC_6 and 7 Extension Approval with NAPL_20181022v3.docx

Thanks Lene. We appreciate your agreement to refer to the attachments as additional information as provided by SMEs. Attached is a revised letter based in large part on the letter DOH and EPA agreed upon prior to receiving the Navy's request for an extension to submit the Groundwater Flow Model. I look forward to discussing the option of sending this letter which includes an approval of their extension request with our concerns on their model later today.
Nicole

Subject: FW: Edits to LNAPL Attachments for Topics 8 & 10

All,

Attached are revisions to Topics 8 and 10. At EPA's suggestion, I am amenable to refer to all of the "Additional information" that is referenced in the originally agreed upon cover letter to be a product of the Regulatory Agencies' environmental experts. As such we would need to allow Don, GD and Matt an opportunity to review Bob's edits. I believe we are close in reaching a resolution on this attachment, and would like to proceed with issuing the originally agreed upon cover letter (there will be some edits, based on the aforementioned comment). I will work on these edits and forward the revised cover letter after my next meeting.

Thanks,

lene
